

As the 2018 conference fast approaches it serves as a timely reminder to consider renewing your OHNNG membership. we have moved to online membership that option is no longer offered. The new program we have in place will notify members one month prior to their member expiry date which saves us all having to remember when we last paid our fees. If you paid membership with your registration to the 2017 Adelaide conference **-it is soon time to renew!**

The 2017 conference was held in late March (23rd to 26th) so your membership will expire at the end of this month. I encourage you to maintain your membership to ensure you can qualify for OHNNG sponsorship in the future. Continuous membership of 2years or more is a prerequisite for consideration of financial sponsorship.

OHNNG has plans to offer more speciality specific education across the nation. Lots of study days and events and access to more online content. The 22nd annual conference in Perth next week will be recorded and this content will be made available to financial members only.

Head to www.ohnng.com.au and renew your OHNNG membership.

Benefits of Membership
